THE OHIO ELECTION.

Meagre Reports—Nothing Known as to the Result—Quiet Prevailing and a Heavy Vote Poll'd.

By Telegraph to the News.

CLEVELAND, Oct. 8.—The election is progressing quietly. A very large vote is being polled. The indications are that Townsend, Republican, will be elected to Congress. The tickets being tall and badly scratched, it will be before the result is obtained.

CINCINNATI, Oct. 8.—The election is progressing quietly. The vote will be heavy. Indications at this hour are that Butterworth and Young, Republicans, will be elected to Congress from the first and second districts, will be elected.

CINCINNATI, Oct. 8.—Three Deputy United States Marshals from Indianapolis appeared at North Vernon, Ind., yesterday, and arrested James H. Wicker, Democratic candidate for county Treasurer; Dr. C. H. Wiles, Democratic candidate for Representative, and other prominent politicians, for alleged attempts to colonize repeaters.

INDIANAPOLIS, Oct. 8.—The election is progressing quietly. The indications are that there will be a very full vote.

DEATH ON THE RAIL.

Smash-up on a Road near Boston—Its Terrible Fatal Results.

By Telegraph to the News.

BOSTON, Oct. 8.—A serious accident occurred this evening on the Old Colony Railroad, to a crowded excursion train returning from the Silver Lake racing meet, between Revere, of Boston, and Davis, of Portland. Twenty cars went off the track. It is rumored that forty-two persons were killed, and Revere, the brakeman, fatally injured.

Yellow Death.

By Telegraph to the News.

BATON ROUGE, Oct. 8.—New cases, 47; deaths, 7. Among them is J. V. Durand, Jr., ex-sheriff of West Baton Rouge Parish.

MEMPHIS, Oct. 8.—The weather is unfavorable. There have been twenty-two deaths since last night.

NEW ORLEANS, Oct. 8.—The weather is cloudy and threatening rain. To-day there were 18 new cases and 49 deaths.

PORT GIBSON, Oct. 8.—No deaths in town since Sunday. But few are left to have the fever. News from the country is fearful. At least forty whites have died. The mortality among the blacks is even greater.

CAIRO, ILL., Oct. 8.—Up to noon there are no new cases or deaths.

various ways, finally plunging a sharp stick through its body and so fastening it to the ground. The next Sunday the family again visited the park, and the boy remembering his sport of the previous week, went in search of more toads. He found the animal he had so cruelly used still pinned to the ground and still alive. As he approached, the poor thing looked at him, its immense eyes distended with pain and suffering. The child was terror-stricken at the sight, and ran crying to his mother, to tell her what he had done. He was taken home, and after a period of excitement and put to bed, where he remained for three days in a burning fever, which ended in his death. Just before he died, he declared that wherever he looked he saw the pleading eyes of poor toad and begged to have it taken away.

At the Nebraska Republican State Convention every time the name of Blaine or Grant was mentioned it was greeted with a storm of cheers, and every denunciation of Hayes brought the house down in a tempest of applause. Hayes ought to have taken in Nebraska when he was exhibiting them.

A Chinese child's magazine of sixteen pages is now published in Shanghai. It is illustrated and published monthly at the very reasonable price of fifteen cents a year. The trouble that will confront the English child will be to tell which are the engravings and which the reading matter.

In this age of progression it is rather curious to see a town go backwards. Westhampton, Mass., celebrated its centennial on Sunday by religious and secular services in its one church. It has neither railroads nor manufactures, few of the natives are left and foreigners have taken possession of the soil. The population fifty years ago was 800, thirty years ago 700, twenty years ago 600, and now it is 500 and decreasing.

Dennis, the Drayman.

Louisville Courier Journal.

It is sad to observe that Dennis Kearney's contact with the fine old culture of Boston and the Massachusetts communities generally has not tended to soften the asperities of his character or to improve that very bad English which he brought from the sand lots of San Francisco. Dennis does not even catch any new ideas in slang and blackguardism. "Will the representatives of those slimy villagers meet the Boston paper please take seats upon the platform," is his usual welcome to reporters, and he never omits to say: "Again we stand in the God-like attitude of freedom and manhood, despite the aspersions of slimy bondholders and political hummers." The fact is, Kearney is no prodigy, unless a prodigy of brass. He has not within him the stuff of which heroes are made. He does not even inspire that peculiar hero-worship which the more vicious members of the proletariat party and materially benefiting the regular Greenback party.

THE THIRD DISTRICT.

Candidates for Congress—The Greenbackers to be in the Field—Judge Russell Joins that Party—Necessity of energetic Action.

Correspondence of the News.

WILMINGTON, N. C., Oct. 8.

There are two candidates for Congress in this Congressional District, and soon there will be another in the field. Col. A. M. Waddell, the nominee of the Democratic party, is making a vigorous and effective canvass of the entire district. Hon. W. P. Canaday, ex-mayor of Wilmington and Collector of the Port, has been nominated by the Executive Committee of the Republicans of the district, and will not be idle in the campaign. Personally he is very popular and is no doubt the strongest Republican in this Congressional district, and will command more votes than any other Republican who has received if nominated.

The regular Greenbackers will hold a district convention here on the 17th instant for the purpose of nominating a candidate and it is very certain that they will bring out their strongest man. It is to be said that the Greenback party has no strength in the Cape Fear District, for the fascinating doctrines of that new party are taking a strong hold of the popular mind of this district, as well as of the public mind of the whole State.

But the most significant political event of late in this section is the sudden and unexpected conversion of Judge Daniel L. Russell from the Republican ranks to the National Greenback party. His conversion is now much of the political talk all over this district, and has taken the upper hand with surprise. That he is a man of superior mental power cannot be denied, as well as of very bitter prejudices, now against the Republican as well as the Democratic party. He has a State reputation for fierce and violent opposition to the Democracy and now turns his batteries with equal power and passion against the Radicals. He has opened a canvass of his own, Turner City, and goes it with a strong and open mind, calling and establishing with boldness both of the old parties and their respective candidates, and rallying, as best he can, with his iron will, support and votes for the coming nominee of the Greenback Convention, to be held here as announced.

He is not and never was popular with the negro element of the party of which he was a very conspicuous and influential leader, and he will hardly be able to draw any of them from the support of the Republican candidate, Col. Canaday. He ought to be met on every stump by some Democratic speaker. He was met and demolished on yesterday, as reliable information has it, by able and eloquent champion in the Dennis, Major Charles W. McCloud, at Burlington, in Pender, at one of the appointments of Judge Russell. The Major took up his arguments, one by one, and flattered them with a master hand, to the gratification and applause of the Democrats present, and gained new laurels in his evident triumph over this new-pledged and spirited leader now of the new party, in this portion of the State. Let him be followed up by the Major, who is doing effective work for Col. Waddell, or by some other similar foeman who is worthy of the steel of the Democratic party. The changes against Judge Russell and other leading Democratic senators in Congress, that they have never advocated a repeal of the resumption clause, and with Col. Waddell, have no voice nor record to show that they have favored that favorite measure of the Greenback party, of paying the bondholders according to the imperial contract, &c., &c., &c., are damaging the Democratic party and materially benefiting the regular Greenback party.

THE CHINESE AT THE WHITE HOUSE.

Funny Story Concerning the Reception.

Baltimore American.

There is a funny story afloat concerning the reception of the Chinese Embassy at the White House, which might furnish Mr. Carlyle with another chapter of Sartor Resarts. As the distinguished disciples of Confucius passed into the Blue room, where they were to be introduced to the President, Secretary Evans stood near the door ready to perform his part of the ceremony. Being dressed in the regulation steel-peel coat and white evap worn by the attendants, the visitors from the Flowerly Land mistook him for one of them and they filed past him each handed in his enormous plate hat, until the Secretary was lowered down with them. Quickly as possible he transferred his broad-brimmed to a bystander and rushed in to the audience. He was a fat old man, with a wig, who sat at the window, literally all day long, with the same penny newspaper in his hand, behind which he is sitting at the wife of our next door neighbor. Now, our next door neighbor is a rich man, and is said to whip his wife, which may not have derived its popularity from the hands of those that hate him; however, that is what Mr. Gladstone wants to bring himself more prominently than ever before the public. It would seem, however, a most unfortunate thing for the Liberal party that he should stir up British feeling in this way. The liberals are now divided into three factions and need a leader who can take advantage of the evidently growing unpopularity of the Beaconsfield policy, consolidate the disjointed party and bring it again into power.

FLIRTING.

This seems to apply to a random correspondence among parts unequal and almost always unknown to each other. It is not to be expected that any Tory leader, who has not been derived by book by one of the Tory leaders, has on his head fairly delivered himself unto the hands of his enemies and the hands of those that hate him.

Facts About the National Debt.

The Post says that the Cincinnati Enquirer, in reply to a question addressed to it by a correspondent, states that the debt of the United States in 1865 was \$2,680,647,869.74, as against \$2,025,908,485 in 1878. This is a very common error, and should not be propagated by Democratic journals. The debt of 1865 was payable in "lawful money,"—the sort of money that had been borrowed by the Government—and this lawful money was worth in 1865, about fifty-eight cents in coin per dollar. The debt, therefore, calculated on a coin basis, was at that time \$1,554,785,764.35. In 1869 a Radical Congress, bribed by the bondholding interests of this country, and by the agents of foreign bondholders, declared the public debt of the United States payable in coin. The debt at that time was, in round figures, \$2,446,000,000 in lawful money, and at the ruling quotations of money was, in that commodity, \$1,516,520,000. This corrupt act of a Radical Congress, therefore, added \$892,480,00, or four per cent. of the whole amount, in coin, to the National debt. But still the bondholders were not satisfied. Finding that the word "coin" in the swindling act of 1869 embraced silver, and that, by reason of the arbitrary policy of one of the most desperate States of Europe, silver was likely to decline in value relative to gold, they hired the Finance Committee of the Senate in 1872 to smuggle through Congress a revision of the coinage laws, having the effect of demonetizing silver. This again slightly increased the debt. Subsequently, as if to complete this scheme of robbery, the last Radical Congress that ever sat in the Capitol, or will ever sit there, passed a funding act, nominating gold in the bond. Having accomplished "its mission" in this particular, the Radical party ceased to control Congress. The figures given in the Enquirer would lead its readers to believe that the Radical party had reduced the debt from \$2,680,647,869.74, in 1865, to \$2,025,908,482, in 1878—a reduction of \$1,954,739,384.74 in thirteen years. In point of fact, however, the legislation of Radical Congresses has increased the debt from \$1,554,785,764.35, in 1865, to \$2,025,908,485, in 1878, being a net increase of \$471,122,720.65. We do not pretend to say that there is any available means of escape for the people from these consequences of Radical villainy. But it should not be the province of Democratic journals like the Cincinnati Enquirer, to aid the Radicals in suppressing the evidences of their crimes, even inadvertently. The fact that the sway of Radicalism has cost the taxpayers of this country nearly half a bil-

lion of gold added to the National debt, besides the uncounted millions stolen in other ways, should not be suffered to sink out of sight. We are not in favor of repudiation under any guise whatever. We suppose the debt will have to be paid according to the terms nominated in the bonds by the wily Radical scoundrels who were hired by the bondholders to betray the trust of the people. The Democratic party will have to pay it through close economy and strict honesty in administering the Government and husbanding the revenues of the country. But we do not intend that the people shall lose sight of the fact that this awful increase of their burdens is the chief legacy left them to remember the Radical party long after its foul carcass shall have been buried.

Fast India Mail Route.

England has just concluded a new contract for the mails between Britain and India. The time is shortened 60 hours or 24 days. The mails are to go by rail from Calais to Brindisi (at the foot of Italy) thence by steamer to Alexandria, and are to be carried through Egypt by rail. The English Engineers are also busy surveying the railroad route from opposite Cyprus to the head of the Persian Gulf. This proposed road will be about 900 miles in length, will shorten the distance to India 1,500 miles (if we count Kurachee, the western terminus of the Railroad system of India as the objective point instead of Bombay) and will further shorten the time by 15 days.

In the death of Gen. James G. Martin, North Carolina has sustained the loss of a patriotic and devoted son. His services in the beginning of the war in preparing for the field, organizing and disciplining the North Carolina troops cannot be easily overestimated. It left its impress upon them to the last. The North Carolina troops were the best disciplined troops in the confederate army. In the coming impartial history of the war, which is yet to be written, he will receive his due meed of praise. He has been gathered to his fathers, ripe in years and full of honors.

Picturesque Reporting.
From the Newark Journal.

The reporter of a Southern paper, who wrote a picturesque account of a fire, heading it, "A Lurid Flame Licks a Lumber Pier," has recently taken up his residence in Newark. To-day he submitted to the Journal a report of the blaze in Harrison this morning, but unfortunately the plainer story of a regular scribe of the paper was in type at the time, and the new com'er's thrilling report frills, and all, had to go into the waste-basket, excepting the introduction, which was too beautiful to be sacrificed. It is given below:

CALAMITOUS CONFLAGRATION.
The Devouring Element again Rampant in East Newark—Bovers' Boat-House Burned to the Bottom—Sad Scenes of Sorrow and Despair.

Early this morning, before the orb of day had risen above the eastern hills, the dwellers in the quiet and beautiful East Newark were startled by cries of fire. The alarm spread rapidly through the noble avenues of that stately city. The peaceful and industrious inhabitants, as they hurriedly arose from their beds, were filled with apprehension by the broad and portentous glare which was visible from every object, and which glowered upon them from the overarching clouds. Soon the panic-stricken multitude of patriotic citizens, as half-dressed and with anxious faces, hastened down toward the scene of devastation, where the fiendish flames were discovered bursting with savage fury from, etc.

GERMAN SOCIALISM.
It is proposed by certain parties, says the Saturday Review, to remove the material causes of Socialism by removing the poverty which disposes so many Germans to be discontented with the existing order of things, and for that reason disposed to examine with curiosity, if with no warmer feeling, every proposal, however wild, which aims at lessening the poverty. There, however, the policy of material improvement comes into direct conflict with Prince Bismarck's whole management of foreign affairs. An Empire which has been founded cannot set an example of military economy. It has made too many enemies to be able to keep its good in peace in any character except that of the strong man armed. Even Prince Bismarck cannot hope to unite contradictory advantages, to combine the broad desirability of position with the pride of power, which has made itself, and intends to remain the first military power in Europe. So long as the tax of personal service has to be paid by the working classes of Germany, poverty and, consequently, Socialism, will continue to defy legislation.

A Queenly Bit of Vanity.
Her Imperial Majesty, the Empress of India, says the London World, anxious for the propagation of love for the fine arts among her dusky subjects, has taken means to improve the Hindoo appreciation of the beautiful. There is now being prepared a well known art establishment, a very elaborate portrait of the Empress in her imperial robes of state. In its duplicate form the portrait is intended for extensive circulation in India. But to people who, with my Lord Beaconsfield, fancy there is something like a family connection between the imperial ruler of India and the merely royal lady who rules in England, the portrait is a physiognomical puzzle. The imperial lineaments bear no resemblance whatever to those

of Queen Victoria. The imperial lady is portrayed as stately and handsome lady, aged 30 or 35 years, arrayed much more gorgeously than even Solomon in all his wisdom. Her Majesty the Queen has inspected the picture, and enthusiastically expressed her approval of it as a work of art and portraiture. But, then, she never saw the Indian lady arrayed in all her eastern glory before. Within a very few weeks the imperial profile will be in the hands of every prince and princeling in the world, and, indeed, in the hands of every Indian nobility attached to the British dominions.

A Strange Coincidence.

Tuesday evening last, says the Cincinnati Star of September 27, Mrs. Elizabeth Moloney, aged 93 years, and grand mother of George Town, died at her home on Pleasant street, in Covington. Her remains were taken to Cynthia, Ky., for interment, and upon their arrival in that city they were taken to the church where the funeral ceremonies for a Mrs. Woods, who had died on the same day, were about to be performed. Upon inquiry it was ascertained that Mrs. Woods and Mrs. Moloney were born on the same day, in the same county, Limerick, Ireland; were educated in the same school, and both died of the same disease. The scene was indeed impressive, as the friends of one were the friends of the other.

The pastor of the church, Mr. Sexton, the sexton, the organist, and the choir were all present.
